**MARKET LEADERS IN THE DESIGN AND MANUFACTURING OF MATERIALS HANDLING EQUIPMENT**

### WHY CHOOSE PALAMATIC?

Manual handling and Risk Assessment are now everyday requirements for industry to deal with. Palamatic has worked in partnership with many refractory manufacturers and suppliers to advise and solve materials handling problems.

Applications include the lifting and manipulating of paving slabs, causeway edging, furnace bricks, bollards, roof tiles and moulds with effortless ease.

The end result to the customer is increased production, reduced injury levels and consequently reduced insurance cover. With Palamatic's assistance customers can deal with manual handling problems, to CE regulations and still be competitive in today's market place.

The benefits of Palamatic lifters include **effortless lifting, increased productivity, increased operator safety and performance.** All giving you a low maintenance, high efficiency system.

**MANUFACTURED IN THE UK**
